

International Celebration

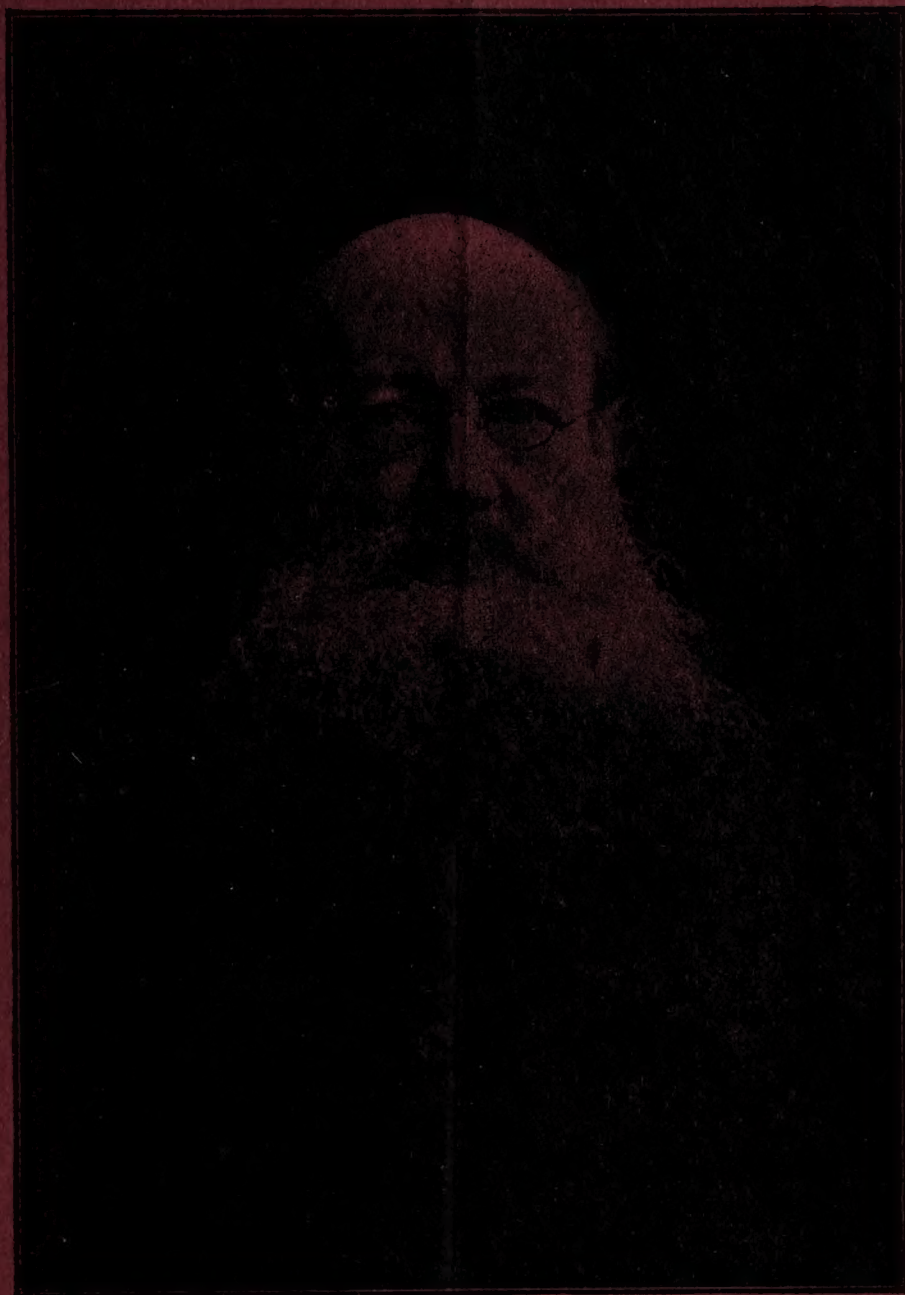

in Honor of Our Beloved Teacher

PETER KROPOTKIN

ON THE OCCASION OF HIS 70th BIRTHDAY

Not one of the nations whose literature Kropotkin has enriched with his great thoughts and ideas will fail to greet heartily the anniversary of this great enthusiast of freedom not one of his adherents but will express his great respect for this teacher of humanity, Peter Kropotkin, as a prophet of wide-world freedom, as a fighter for everything that is beautiful and sublime.

Kropotkin as a philosopher and scientist belongs more to the working class. It is to us what he devoted his entire heart and and soul, therefore, let us workers of the world unite and show our appreciation by making his anniversary one of the greatest events in history.

will take place

**Sunday
Decem.
8th**
